

I do not want you to change Indiana's "Do Not Call" rule. Many of the unsolicited phone calls we receive are from companies with whom we are an "existing customer." I do not need to receive calls for insurance (I have enough), travel clubs (I cannot afford a lot of traveling), or shopping clubs (that will not save me more than the membership fee). The very calls you are considering to allow are the very ones I do not wish to receive, especially at dinner time. Please do not change Indiana's rule. Thanks for considering my comments.
